## Version 3.0 Release Notes

### Fixes 🐞
- Re-introduced triple BACKSPACE to delete topic

### Tweaks ⚙️
- Email outline body is now optional per email
- Attachments configurable per email
- Links now support relative paths
- Upload/Download backup archive from any cloud storage service - not just iTunes
- No need to set explicit export formats
- Delete entire folders
- Download PDF and PNG over browser interface
- New sibling topics take their defaults from their sibling
- Daily archive now executed in the background - no more annoying popups
